## PIN POINT POWER GETS BEST RESULTS

Radio Station W-I-T-H "pin point power" is tailor-made to blanket Baltimore's 15-mile radius at low, low rates—with *no waste coverage*. W-I-T-H reaches 74% \* of all Baltimore homes every week—delivers more listeners per dollar than any competitor. That's why we have twice as many advertisers as any competitor. That's why we're sure to hit the sales "bull's-eye" for *you*, too.

# 1957 BUYERS' GUIDE

## to radio and tv station programming

### **Key to new opportunities in the tv and radio markets of America**

The 1957 Buyers' Guide serves the exceedingly important function in helping you adapt your advertising and merchandising needs to the programming climate of the radio and tv markets and stations you select. For it catalogues the local programming of 2676 radio stations and 515 television stations and enables you to tell at a glance the programming character, audience interests, facilities and services of the individual stations. In addition, your opportunities for using these media are further enhanced by having complete lists of stations appealing to specific groups or interests, needs and tastes. On page 14 you will find just a few typical ways time-buyers use the BUYERS' GUIDE to take full advantage of the practical information it furnishes. There are many others. Television's fast tempo and radio's new values make the station's programming pattern, as detailed in the BUYERS' GUIDE, of key importance to the advertising man.

Each month, each report adds proof upon proof of WQAM's rapid take-over of Miami listening. First it was Hooper showing WQAM way out front with 30.1% of the audience\*. Now the newest Trendex gives WQAM 35.4% share of audience in the morning, 33.1% in the afternoon—for an all-day average of 34.1%!

All this has been accomplished without so much as a single give-away and without a single contest which required participants to be tuned in in order to win.

Observing these developments, time-buyers, both on the scene, and out-of-town, are fishing in WQAM waters for sales—and landing them. Get your own line on Southern Florida from a BLAIR man . . . or WQAM General Manager JACK SANDLER.

## SIX COMPLETE BMI PROGRAM PACKAGES

Broadcasters are now receiving six important program scripts from BMI on a regular basis. These scripts are filling a vital role in the daily programming logs of stations in every section of the country.

BMI scripts, ranging from daily five-minute shows to special-event programs of all types, are mailed to BMI-licensed stations on a monthly basis. They are written for commercial use and tailored to the needs of all types of broadcast operations.

BMI scripts are perfectly suited both to the station with a small staff, limited facilities and curtailed budgets, as well as to the large operation with full orchestra and complete program staff.

### THE AMERICAN STORY

Newest of the BMI scripts . . . prepared by BMI in association with the Society of American Historians. Each fifteen-minute program consists of a single narrative written by an outstanding American historian, expert in the period or subject. Here are the fascinating and inspiring stories of our country from the age of discovery to the age of the atom. Top prestige programming.

### THE BOOK PARADE

Sparkling 15-minute scripts written by the most prominent of literary figures. This series is being hailed as "a conspiracy against ignorance" and has skyrocketed into national prominence. Another BMI script for top prestige programming.

### MILESTONES

Full half-hour presentations . . . simple to do, saleable, excellent listening. Usually four per month, sometimes five. Each script commemorates a special date or event of national importance.

### STORIES FROM THE SPORTS RECORD

Music and sports team up in this series devoted to eye-witness accounts of dramatic action on the baseball diamond, in the prize ring, on the gridiron and elsewhere. . . . A complete script package available three times weekly as a 15-minute presentation.

### ACCORDING TO THE RECORD

Timely facts about the unusual, with musical cues that fit neatly into a dynamic 5-minute show. . . . Highly commercial. . . . Available 7 times per week for 52 weeks. *Now in its 13th successful year.*

### MEET THE ARTIST

Behind the scenes . . . three-a-week 15-minute scripts loaded with factual biographical material about recording artists in the public favor. Fills a vital need in areas where such data is not easily available. Highly commercial.

BMI makes no charge to its licensees for this program service. Each script is designed as a practical program and its use for commercial sale is encouraged.

*Your program manager is receiving all of the BMI program scripts. Put them to work. If your script packages are not being received, write immediately to BMI Stations Service Department.*

## THEY'RE BLOWING OUR HORN!

Take it, Mr. Pulse!

The latest Pulse Report (Oct.-Nov., 1956) of the Fort Wayne area covers 26 counties.

Pulse surveyed 476 quarter hours—6 A.M. to 11 P.M., Monday through Sunday.

Pulse reports that, for the 3rd straight year, WOWO has . . .

*476 "FIRSTS" out of  
476 quarter hours surveyed*

The reason is no secret: results like these come from WOWO's bright new *music* programming . . . complete on-the-spot *news* reporting . . . plus *service* that keeps WOWO listeners informed on what's going on in their communities.

For hard-selling availabilities call Tom Longworth, WOWO Sales Manager, at Anthony 9436, in Fort Wayne. Or, A. W. "Bink" Dannenbaum, WBC VP-Sales, Murray Hill 7-0808, in New York.

In the tri-state Indiana-Ohio-Michigan Market, no selling campaign is complete without the WBC station . . .

## Put your money where the people are

Broadcasting to beavers gets you nowhere—but pleasing people makes cash registers sing with joy.

WWJ's new Hi-Fi signal, personalities, news coverage, and feature programming concentrate on *people*—the big-earning, big-spending folks in southeastern Michigan to whom WWJ is a constant companion and trusted friend.

Bow to beavers when you're on a holiday. Use WWJ when you're bidding for sales.

Seventy per cent of Michigan's population commanding 75 per cent of the state's buying income is within WWJ's daytime primary area. In the Detroit area alone, over 3½ million people drive nearly 1½ million cars and spend over \$5 billion annually for retail goods.

Larry Bentson says . . .

**WLWL SOUNDS GOOD...LIKE A GOOD RADIO STATION SHOULD...\***

*\*like any pipe-smoker knows.*

And Twin Citians listen good to WLWL. It's their kind of station . . . top music format, top newscasts, and top lineup of advertisers. The five famous song chefs who serve this million-and-a-half market its favorite entertainment dish are WLWL's Big 5 disc jockeys. What they play, Twin Citians sing. What they sell, Twin Citians buy!

*All-new surveys show again:*

## When the youngsters are away . . . Kansas City radios stay . . . with WHB

Let's look between 9 a.m. and 4 p.m. Monday through Friday—and see what happens to Kansas City radio listening when "all those teen-agers" are at school.

WHB continues its domination! According to every major survey, everyone of the 140 quarter hours from 9 to 4 belongs overwhelmingly to WHB. This, mind you, when there are *no* teen-agers available. No wonder WHB carries regular schedules for virtually every major Kansas City food chain—including A & P, Milgram's, Thriftway, A & G, Wolferman's and Kroger. Let the Blair man tell you WHB's dramatic 9 to 4 story. Or, talk to General Manager George W. Armstrong. And while you're at it, get the *whole* day and night picture!

† station features classical music  
Figures represent hours per week

● 2009 stations regularly schedule light orchestral or classical music. This represents 75% of all 1957 questionnaire respondents. Last year Buyers' Guide showed a total of 1959 stations in that category. Concert music continues to be exceedingly popular with a large share of the stations. 593 or 29% of the 1957 respondents schedule 10 or more hours of good music per week. Most of these same stations devote the bulk of their programming to popular music and other forms of entertainment. Most of the stations devoting a substantial portion of their programming to classical or light orchestral music are located in the larger metropolitan areas. 110 of them or 18% appear also in the Farm Radio category (see page 87). 125 or 41% of the foreign language stations also feature this type of programming.

# country & western music

Figures represent hours per week

Country and Western music as a station speciality really came into its own this year. 2024 stations regularly schedule or feature country & western music. This represents 75% of all respondents to Buyers' Guide questionnaires. In the 1956 Buyers' Guide where this category is identified as "folk music," a total of 1959 stations reported extensive use of this form of entertainment in their schedules. To give you more details on the growth of this category, the 1955 Buyers' Guide shows 1671 stations in this category while the 1954 edition reported only 66% of respondents featuring this type of music.

As in other sections, stations listed below show a wide variety of programming. 40% appear on the Negro radio lists. 32% are on the religious and gospel music list and 25% show up in the farm section.

\* Indicates member of Nat'l Assoc.  
Radio and TV Farm Directors

• Farm radio continues strong in both the U.S. and Canada with 77% of total respondents to the 1957 Buyers' Guide questionnaires scheduling specific programs each week beamed to the rural audience. This compared with 76% in 1956, 70% in 1955 and 64% in 1954.

Of the 2072 stations scheduling farm features regularly, 601 or 29% program more than five hours per week in this category. These stations, listed below, offer a wide variety of other programming, of course, and appear in other directories in the Buyers' Guide as well. For example, 18% of this category program 10 hours or more per week of concert or classical music, 19% in the group schedule 20 hours or more per week of country & western music. It must be remembered that many stations offering fewer than five hours per week of farm programming and, therefore, not listed here, are extremely important in rural appeal and enjoy a great following.

# This is Spanish-language radio in Texas

Survey after survey gives conclusive proof of the impact of the Pinkerton-Pool Texas Spanish-language stations.\* Advertisers using the stations are *Calumet, Carnation Milk, Fab, Kool-Aid, L & M, Pet Milk, Schlitz Beer, Tide, etc.* With 740,431 Mexican-Americans in the stations' coverage area, advertisers reach more people more often at less cost than via any other medium. Plus . . . a bonus of 197,000 Mexicans, many of whom shop in the U. S.

## We're proud of our brood...

Mighty proud! And for thirteen good reasons. Thirteen key stations in leading Southwestern Spanish-speaking markets giving advertisers the *most comprehensive coverage of the Mexican-American market.*

So complete, that in markets like Albuquerque, Phoenix, Tucson and Austin, the National Spanish Language Network gives the *only* Spanish-language coverage. And these are markets in which Spanish is overwhelmingly preferred by the Mexican-Americans.

The National Spanish Language Network, reaching 2,500,000 Mexican-Americans, is the *only* advertising sales medium tailored to cover this dollar-rich market. And you get hard-hitting Spanish-language merchandising to back your on-the-air selling impact. Ask us to show you.

For further information contact your nearest "rep".

\* indicates 100% Spanish programming.  
Figures represent hours per week

While 5% of the stations listed below are Spanish language stations, this is not to be confused with the stations that program in the Spanish language out of New York for the Puerto Rican population segment of those in other states. Those appear in the Foreign Language section, page 93 in this book.

Gary	WGRY	7
Hammond	WJOB	1 1/2

Language professors verify the fact that no matter how many languages a person speaks, he THINKS in the language he first learned. In the Phoenix area, 85,000 English-and-Spanish-speaking Arizonans think in Spanish . . . and keep their radios tuned to KIFN, the station that broadcasts in Spanish.

So, senior—to tap this rich market (\$20,000,000.00 in annual retail sales!) sell your product in the language they think in. . . .

—Central Arizona's ONLY full-time Spanish-language station! We translate your salesmessage FREE. Production spots available.

\* indicates 100% Negro programing.  
Figures represent hours per week

• 568 stations or 21% of those who filed questionnaires for the 1957 Buyers' Guide reported that they were programing at least a portion of their schedule for their local Negro audience. This is a drop of 8% from the total number of stations reporting this category in 1956. 38 states and the District of Columbia reported Negro programing in 1957 against the 42 states in this category in 1956 and 39 in 1955. Actually the number of stations 100 per cent devoted to Negro programing rose from 43 stations in 1956 to 47 stations this year. 42% of the stations reporting Negro programing also devote 10 or more hours per week to religious schedules. Negro programing covers a wide variety of interests, such as Negro news, sports, rhythm and blues music, community public service, to name a few.

**WDAS** serves

**THE VITAL CENTER**

*America's  
3rd Largest  
Negro Market*

A center composed of 600,000 brand-conscious Negro consumers with a spendable income of close to one-half billion dollars per year.

A center larger than 90% of all other American cities.

A center highly accessible to servicing and merchandising, with its focal point in the heart of Philadelphia.

A center which WDAS contacts more directly than any other advertising medium.

A center of people who believe in and respond to the advertisers who recognize and welcome them.

A center that cannot be overlooked or aimed at indirectly if adequate advertising coverage of Philadelphia is desired.

A center that contains Philadelphia's expanding and dynamic growth group:

From 1940 thru 1950, Philadelphia's White population increased by 0.8%.

Philadelphia's Negro population increased by 49.9%.

From 1940 thru 1950, Philadelphia's White home ownership increased by 57%.

Philadelphia's Negro home ownership increased by 340%.

High Negro birth rate during this current decade (1950-1960) assures another record breaking ten-year period. Twenty-one percent of Philadelphia's population is now Negro, and the percentage is growing.

The average annual increase for the six year period, 1950-56, for Philadelphia's Negro population has been 13,700 as compared with 12,500 during the preceding decade.

**THE KEY TO THIS VITAL CENTER IS WDAS:**

It is Philadelphia's first and only fully programmed Negro station.

It is the Philadelphia Negro Market's most powerful station.

It is Philadelphia's oldest Independent, with the most broadcast hours to Philadelphia Negro listeners, a pioneer among Negro broadcasters.

It has the largest on-the-air staff of Negro personalities.

It has completely new broadcast and transmission facilities.

It has Negro Market know-how.

It has Philadelphia's first and only full time Negro Merchandising Department.

It has available complete market studies and research data.

It does thorough market-wide promotion (billboards, newspapers, personal appearances, etc.)

It carries more accounts than any other station in the market.

It has wide programming variety.

It does continuing community service.

# popular music

Figures represent hours per week

● Popular music remains in high favor as a programing formula by just about every radio station in the country, judging from the response to the 1957 Buyers' Guide questionnaires. Heavy emphasis on this programing category is placed by the vast majority of respondents with an increasing number of stations relying on this technique exclusively. In the listing that follows 385 stations are shown with programing of a minimum of 75 hours per week of popular music. This is 15% of the total category respondents. In all, 2592 stations report schedules of popular music including pop tunes, jazz, rhythm and blues, old standard and Broadway show tunes. The popular music trend is strong in virtually every part of the country though music formats vary by geographical areas covered and by audience acceptance sought. For full list of stations reporting weekly hours of popular music programing please refer to the master directory.

Figures represent  
hours per week

• As in previous Buyers' Guides, this special category again shows up strong. The 1957 Buyers' Guide shows 2482 stations or 93% of total respondents with schedules of some time for weekly religious programming. This compares with 2277 stations or 91% reporting similar schedules in the 1956 Guide. Listed below are the stations that schedule a minimum of 10 hours in this category. The total was 372 in 1957 and a high mark of 477 in 1956.

## HOW MUCH SHOULD A STATION INVEST IN TRADE PAPER ADVERTISING?

Station managers tell us that they seldom get a straight answer to this oft-asked question.

Yet today's strict insistence on economy in every phase of station operation demands that the question be answered.

Here is what we say when someone asks, "How much should my tv (or radio) station put into trade paper advertising?"

For three out of four stations the answer is, "not a red cent."

When you advertise in a tv radio trade publication, you want to attract national business. You're pin-pointing your message to account executives, ad managers, timebuyers. And you must have the ingredients that help you and your rep convert favorable impressions into sales.

With few exceptions, we advise that you reserve your

promotion dollars for local use unless you have—

(1) A national representative who will be stimulated and helped by your trade publication advertising. (2) A market story strong enough to convince national and regional buyers that your station is logical. (3) A station story that warrants consideration.

Frequency, network, and power aren't the whole answer, though they help. A few 250-watt independents have invested as much as 50% of their national spot income in trade advertising and have achieved outstanding results.

As we mentioned earlier, three out of four stations have no business using national trade paper space.

If you're the one-out-of-four that should, SPONSOR recommends, on the basis of industry analysis, that you invest 5% of your 1957 national spot income in this pin-pointed form of advertising.

\* indicates farm director is member  
National Assoc. Radio & Tv  
Farm Directors

† indicates station receives pro-  
gram material from the U. S.  
Dept. of Agriculture

● Regularly scheduled farm programs are reported by 273 stations, some 53% of all respondents to the 1957 Buyers' Guide questionnaires. This compares with 245 stations reporting similar programming in 1956. The U. S. Department of Agriculture offers program material for use by television stations. Many more stations report employment of farm directors this year than last. According to the 1957 survey, 67 stations have such directors while only 55 stations had them in 1956. This refers to those who are members of the National Association of Radio & TV Farm Directors. Types of programming featured include market news, weather reports, interviews, demonstrations, 4-H, farm tips, livestock shows, fairs, special events.

● 438 stations (85% of total respondents) report daily feature film programming. That is a slight increase over last year's 82%. Feature films continue to be a very substantial portion of a television station's daily programming schedule. The release of newer and more desirable films has enabled stations to retain a large percentage of the audience. Late evening film features increased over last year while evening and afternoon film showings remained pretty much the same with morning film presentations showing a slight decline. This year's statistics show that 17% of the stations get their film features off in the morning compared with 19% in 1956. 67% have afternoon films while 27% show early evening films. Late evening film features are the choice of 92% of the respondents against 86% last year.

## WITHOUT A "PEER" in the Rockford Area!

## IN THIS \$ BILLION-PLUS SALES EMPIRE WREX-TV IS THE KING SALESMAN

The Rockford TV Area — Illinois' 1st market outside Chicago—is 400,195 families strong, with \$2,357,080,000 income. It embraces rich farm counties whose cities house industrial giants like General Motors, Fairbanks-Morse, Parker Pen, Burgess Battery, Sundstrand... and show sales indexes like Rockford's 158, Beloit's 151, Janesville's 153, DeKalb's 184, Freeport's 176, Dixon's 203. Sales total \$1,706,962,000, average \$4,265 per family — \$447 above average.

The most recent viewership survey again shows WREX-TV as the favorite, by better than 3 to 1. It's favored by advertisers too... for its consistent results, at much lower cost per thousand.

### film & slides

symbol

\* station abides by SRA ID standards  
tr—transparency; op—opaque

● Of the 515 stations that supplied information regarding their use of film and slides, 341 subscribe to SRA—Station Representatives Association—standards for three-quarter screen shared ID's and full screen eight-second station breaks. That represents 66% of the respondents. In 1956, Buyers' Guide reported 385 station subscribers, or 83% of the respondents that year. 16 mm motion picture projectors are used by 420 stations or 81% of the respondents; three stations report using 35 mm only while 33 stations use both 16 mm and 35 mm projectors. 444 stations use transparency slides with 136 reporting the use of opaques. Full data for each station including slide sizes, projectors used, hours required for art, and station film contact appear below in listings.

● Homemaking, identified in the early days of television with kitchen shows, is in today's tv scheme of things a huge umbrella under which one can find most any program designed specifically for women. In general, the most popular categories remain: kitchen, home decoration, child care, do-it-yourself, fashion & beauty. Kitchen shows remain tops with 77% of the 365 respondents reporting this category. This is slightly more than last year when 87% of respondents claimed kitchen shows. Fashion is number two with 69% compared with 71% last year. Do-it-yourself ranks third with 49% of the stations reporting this category, home decoration shows rank fourth with 43% of the stations reporting them while 56% claimed beauty shows. Child care programs show a slight decline from 49% last year to 38% this year.

# special appeals

• Of the 515 stations now on the air or scheduled to go on the air at an early date, 9% report special appeal programming. This is a slight decrease over last year. Among these stations catering to the marginal audiences there is this trend: In 1954 eight stations reported negro programming; In 1955, 19 stations claimed such programming; in 1956 the number of stations reporting negro programming had jumped to 35, while today 26 stations claim this category. Spanish language programming ranks second with 19 stations reporting it compared to 17 last year; Italian is third with four stations; Jewish and Polish, three stations each; German, two stations. Others are divided among the following language categories: Hawaiian, Latin-American and Portuguese, one station each.

x station offers facility  
under column heading

● This list of 440 stations is designed to help the buyer for specialized products. The list was set up in chart form so that the reader could easily compile lists of stations offering each facility. Of greatest significance perhaps is the very large increase of stations equipped to receive color telecasts. The jump was from 132 in 1955 and from 211 in 1956 to 240 today. A similar increase is shown in number of stations equipped to transmit color—196 reported in 1956 Buyers' Guide compared with 243 today.

385 or 88% have permanent kitchen sets

414 or 94% have permanent living room sets

355 or 81% have permanent out-door or patio sets

271 or 62% have auto ramps

245 or 56% have rear view screens

203 or 46% have remote equipment

243 or 55% are interconnected for black and white

240 or 55% are interconnected for color

243 or 55% are equipped to transmit color
